

# ESP EASY SURFACE PREP FACT SHEET

## **Description**

A wipe on - wipe off easy to use and deeply penetrating surface preparation that firmly bonds paint to glossy surfaces such as glass, Laminex, enamel, varnish, ceramic tiles, aluminium, porcelain. *ESP* is colourless.

## **Purpose**

To eliminate sanding and prevent damage to glossy surfaces. *ESP* assures paint adhesion to glossy, slick surfaces without the need to degloss or use special primer coats. Saves both time and labour.

## **Application**

Apply *ESP Easy Surface Prep* with a rag, brush or roller and wipe off after 5 minutes with a soft lint-free cloth. Apply paint after 2 hours or within one week. Greasy, waxy surfaces should be scrubbed first with fine steel wool soaked with *ESP* before proceeding as above. If paint crawls or separates, use a detergent first to remove contamination.

## **Drying Time**

After wiping off, *ESP* can be painted over after 2 hours

## **Container Size**

*ESP* is available in 500mls, 1, and 4 litres containers.

## **Coverage**

One litre of *ESP* will prepare 10 - 15 square metres. 500ml is sufficient for most kitchens and bathrooms.

## **Clean-up**

Clean equipment and spills with mineral turpentine.

## **Safety Directions**

Follow common sense painting procedures. Wear protective glasses and gloves. If in eyes or on skin, wash with copious amounts of water and seek medical attention if irritation persists.

## **Waste Disposal**

Dispose of in accordance with local disposal regulations.
