

SPA-N-DECK Prep FACT SHEET

Description

Spa-N-Deck Prep Timber Cleaner is a specially formulated detergent type cleaner for all timber. This timber cleaner prepares the substrate for all timber finishes including Spa-N-Deck 100% Acrylic Wood Finish.

Purpose

Spa-N-Deck Prep is versatile enough to clean all types of soft and hardwood, as well as pressure treated pine. It also removes and cleans silver grey timber back to its original beauty without sanding. This product will remove mill scale and open the pores of the wood to ensure penetration of the finish, especially Spa-N-Deck Ideal for both Trade & D.I.Y projects.

Application

Apply Spa-N-Deck Prep to dry or damp timber with a Brush or Lambs Wool applicator, Spa-N-Deck Prep can be sprayed then back brushed with a stiff broom. Leave Spa-N-Deck prep on the surface for 10 minutes before power washing off. Be sure not to let this product dry on the surface.

Drying Time

Touch dry 1-2 hours depending on the surface condition and temperatures.

Container Size

Spa-N-Deck prep is available in 1, 4 and 10ltrs. This product is a concentrate you mix 50/50 with water to make an economical timber wash.

Coverage

Depending on surface porosity. Spa-N-Deck will cover 6 to 8 Sq metres per 1 litre.

Clean-up

Water.

Safety Directions

Follow common sense painting procedures. Wear protective glasses. Wash skin and other areas that have come in to contact with the Prep well with soap and water.
